KLC AUTOMATION · FOR HOTELS, VENUES, WEDDING & EVENT PLANNERS

Before the ride, check the ride.

KLC Operator Records Check — Check the records before you book.

Your guests book limos, party buses and charters off your recommendation. Before you refer a company, see what its **public federal records** show. We pull them into one clean, plain-English report on the **company**, so you are not vouching for an operator you don't really know.

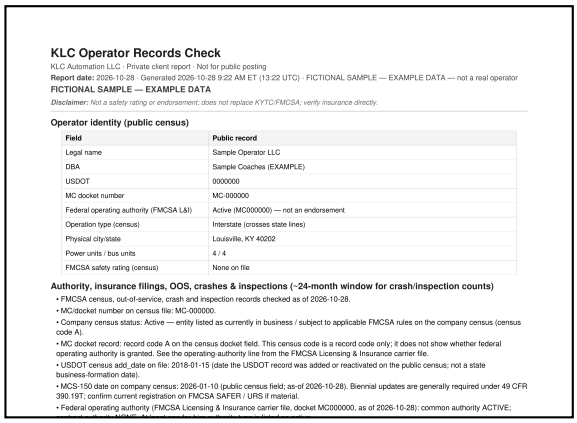

WHAT IS IN THE REPORT

- ☐ **Who the company is on paper**
  Legal name, USDOT and MC numbers, home base and fleet size from the FMCSA census.
- ☐ **Authority and insurance on file**
  Whether federal operating authority is active, and the liability insurance filed with FMCSA.
- ☐ **About 24 months of records**
  Reported crashes, roadside inspections and out-of-service orders. Counts and facts, never a score.
- ☐ **Vehicle maintenance findings**
  Inspection violations by category, such as tires, brakes and lighting.
- ☐ **Recalls on the vehicle model**
  NHTSA VIN decode and the recall campaigns listed for that year, make and model.
- ☐ **A plain-English summary**
  What the records showed on the report date, plus a reminder to get a current certificate of insurance from the operator.

WHAT IT IS NOT

Company records only. Not a driver background check, not a safety rating, not an endorsement, and not a promise that any ride is safe.

FICTIONAL SAMPLE REPORT (EXAMPLE DATA, NOT A REAL OPERATOR)

KLC Operator Records Check

KLC Automation LLC · Private client report · Not for public posting

Report date: 2026-10-28 · Generated 2026-10-28 9:22 AM ET (13:22 UTC) · FICTIONAL SAMPLE — EXAMPLE DATA — not a real operator

FICTIONAL SAMPLE — EXAMPLE DATA

Disclaimer: *Not a safety rating or endorsement; does not replace KYTC/FMCSA; verify insurance directly.*

Operator identity (public census)

Field	Public record
Legal name	Sample Operator LLC
DBA	Sample Coaches (EXAMPLE)
USDOT	0000000
MC docket number	MC-000000
Federal operating authority (FMCSA L&I)	Active (MC000000) — not an endorsement
Operation type (census)	Interstate (crosses state lines)
Physical city/state	Louisville, KY 40202
Power units / bus units	4 / 4
FMCSA safety rating (census)	None on file

Authority, insurance filings, OOS, crashes & inspections (~24-month window for crash/inspection counts)

- FMCSA census, out-of-service, crash and inspection records checked as of 2026-10-28.
- MC/docket number on census file: MC-000000.
- Company census status: Active — entity listed as currently in business / subject to applicable FMCSA rules on the company census (census code A).
- MC docket record: record code A on the census docket field. This census code is a record code only; it does not show whether federal operating authority is granted. See the operating-authority line from the FMCSA Licensing & Insurance carrier file.
- USDOT census add_date on file: 2018-01-15 (date the USDOT record was added or reactivated on the public census; not a state business-formation date).
- MCS-150 date on company census: 2026-01-10 (public census field; as-of 2026-10-28). Biennial updates are generally required under 49 CFR 390.19T; confirm current registration on FMCSA SAFER / URS if material.
- Federal operating authority (FMCSA Licensing & Insurance carrier file, docket MC000000, as of 2026-10-28): common authority ACTIVE;
